

WS9: Maximising materials (Q&A)

Learner: _____ Date: _____

Task 1

The image below shows a set of identical components to be laser cut from a sheet of acrylic.

Discuss whether you think that this is an efficient use of the material being used.

In the box below, sketch a better use of the material.

The component in task 1 is to be part of an assembly and is to be manufactured using hand tools. Explain why the marking out of the material would need to be clear and dimensionally accurate?

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.
